New School Building Contract Goes to Local Firm

Social Credit's Leading Exponent Will Be Honored By Pass Groups at Banquet This Evening

Social Credit supporters of the Pass towns will welcome the Premier and Mr. E. O. Duke at a mass meeting this evening in the arena. The groups will also partake of a supper to be served in the Oddfellows hall.

This is one of a series of meetings being held in southern Alberta. As it is reported that about 90 per cent. of voters here signed the covenant for dividends, they will be present to hear the premier's announcement on this all important topic. The premier, it is reported, has stated that dividends will not become general at first, but will be paid to small rural areas as a start on his plan to abolish poverty in the midst of plenty.

The meeting opens at 8 p.m. Report of the meeting for the daily newspapers will be furnished by Canadian Press correspondents.

Town Council Meeting

A meeting held on Monday evening decided that for purposes of economy Constable Lowe, who had been engaged for two months as night constable, would be replaced by one of the men at present engaged on day work for the town with Constable Antle so arranging his hours that part would be spent on night duty.

A permit was granted Albert E. Knowles to erect a building on his Main street lot, at an estimated cost of \$10,000, to be of stucco on frame. His plans showed a building the width of a 25 foot lot and depth of 78 feet, though he did not stipulate that this would be built to the full extent, in case of bad weather preventing continuance of the work.

It may be used as a State Credit House, according to his plans.

Merchants who may still require calendars for 1937 may order same at once through The Journal office, where samples may be seen.

Band Competition Is Suggested

Would Encourage Bandsmen in Pass Towns and Attract Competition With Many Other Bands

At the general committee meeting of the musical festival it was proposed by Ed. Royle and Albert Morris that during the summer an open-air band competition be organized which would be open to bands from anywhere in the western provinces, and that suitable cash prizes be offered.

The Pass towns have had good bands, and there are many enthusiasts yet who would like to arouse increased interest in this form of music. Bands are always in demand for outdoor gatherings and important meetings, and in later years have received very little encouragement. It is believed that an annual competition would be an incentive for better bands and would increase public interest.

Next summer, if the proposal meets with sufficient financial support, the first competition will be held.

Sudden Death of James Cassidy

Found Dead in Bed in Spokane Hotel—Body Brought Here for Burial—Funeral To-Day.

Death came suddenly to James Cassidy, aged 35 years, at a hotel at Spokane on Saturday, Oct. 3. Death was due to natural causes, advises from Spokane stated. Deceased is a son of Mr. John Cassidy, who came here in 1920 where he gained employment as a miner.

Deceased had been spending a holiday at Spokane and had given his address as Coleman, Alberta. He was found dead in bed on Saturday morning and the first intimation that anything was wrong was when his father received a telegram from the authorities at Spokane informing him that his son had been found dead.

James Cassidy was born in Pictou County, Nova Scotia, in 1901, receiving his education there. His mother pre-deceased him many years ago, she dying in Nova Scotia. In 1920 he came to Coleman and has resided here practically ever since. He leaves to mourn his passing his father, a sister, Mrs. Gertrude Williams of Massachusetts, and three brothers, Wilson, Harold and John J. Cassidy.

Funeral services will be held from the family residence on Thursday at 2 p.m., Rev. A. S. Partington conducting, interment being in Coleman Union cemetery.

St. Alban's Church

Trinity 17—Services will be: 12.30 p.m. Sunday school, 7 p.m. evensong and sermon.

This is national thanksgiving Sunday. Everyone is invited to participate in this corporate act of thanksgiving to God.

The power shovel excavating the basement for the new school provides plenty of entertainment for young and old.

business end of the church is most carefully administered. A reasonable response will take care of the extra winter costs of the work.

West Canadian Band Concert

The above band gave a concert Sunday night in Columbus hall at which assisting artists were Mrs. Upton of Bellevue, soprano; Frank Hozek and Frank Edl, clarinet duet; George Goodwin and Luther Goodwin in trombone and cornet duet, and several other selections. George Goodwin conducted the band.

W. H. Chappell was chairman and appealed for financial assistance to help in purchasing instruments. Concerts will be held in Bellevue on Oct. 11 and Coleman on Oct. 18.

\$3.00 a Throw

A lady in town who during the summer spent her holidays in Los Angeles tells a rather amusing story, to the effect that she went to a widely-known evangelical temple and was surprised to see a lady whom she had previously met hobble up to the front on crutches, then throw them away and walk back in a perfectly natural manner. Expressing surprise, the visitor was told that she needn't be, as the "afflicted" lady got three dollars every time she demonstrated the wonderful power of "divine healing."

Summer-like weather has prevailed this week.

J. S. D'Appolonia, Contractor, to Commence Construction Immediately. Will Provide Employment for Local Workers. Makes Third Fine School for Coleman

FOLLOWING the special meeting of the trustees on Tuesday at which all members were present, Mr. Arthur Reid, chairman of the Board made the following announcement:

Tenders were received from the following:

McDonald Bros., Calgary, \$41,000
Bennett & White Construction Co., 35,460
J. S. D'Appolonia, Coleman, 31,300

Two other firms, of Lethbridge and Edmonton, asked for plans, which were forwarded, but they did not tender.

H. W. Meech, well-known architect and former city commissioner of Lethbridge, has been appointed by the Board to supervise construction of the building.

Construction will commence immediately and it is expected it will take four months to complete the work.

A running track and jumping pit will be constructed on the north side of the school to enable the boys to train for the various athletic events at the schools field and track meets. This will be in connection with the physical training course, as prescribed in the curriculum.

LOCAL AND GENERAL

Rev. A. S. Partington, Col. R. F. Barnes and R. Davidson went to a conference of Anglican clergy and laymen of Macleod Deanery at Peigan Indian school, Brocket, on Wednesday, at which Rev. W. Barlow, principal of the school, was the genial host to the visitors.

The Journal acknowledges an interesting letter from Canon R. A. Robertson, of Shillburne, N.S., first Anglican minister in the Pass whom will be remembered by residents of 30 years ago. On account of ill-health he is taking a year's rest and with Mrs. Robinson will reside at Barrington, N.S.

If it is advertised in The Journal it must be O.K.

Education And The Teacher

Few people look upon periods of depression such as Western Canada has experienced in the past few years, along with most of the other countries of the world in varying degree, with complacency. On the contrary here, as elsewhere, such experiences are usually regarded by the great majority as periods of unadulterated evil, with dissatisfaction and unrest their inevitable concomitants.

It is customary, under such conditions, to surround everything with a halo of gloom. Everything is wrong at home and abroad. Words and deeds are subjected to criticism in an intensive search for microscopic flaws and motives are probed with deep, underlying suspicion. Altruism and faith in fellow mankind almost appear to have gone into hibernation and the whole stream of life seems to be ruffled with turbidity. Criticism is the order of the day.

Criticism of the right type and with the proper motive behind it has, of course, its place in the scheme of things. In fact, without it, there could be little if any progress, but if it is to fill its appointed role in life, it must have behind it a sincere desire to promote betterment and must be dictated by reason rather than swayed by blind passion.

The educational systems and educational methods in operation in the prairie provinces are among the many things which have had to run the gamut of the critical vogue of the period. The criticism which has, in recent years, been voiced freely at conventions, school board sessions, public meetings and during election campaigns in the home and on the street comes not only from parents of children attending educational institutions and the general public but also from educational authorities, teachers and others trained in the craft of pedagogy.

One hears, on the one hand, that the educational system is too expensive and too extravagant. On the other hand, governments and trustees are accused of parsimony. One day the people are told that, in effect, the educational system and set-up is lagging behind the times and the following day, that it is too far advanced for the requirements of present day social conditions and requirements.

As to methods, curricula, equipment and text books, criticisms are legion and varied, so much so, in fact, that it would take a ponderous tome to even list them.

While it may be very difficult, and perhaps impossible to crystallize all these opinions and criticisms into some co-ordinate form which might enable them to be attacked and dealt with on a scientific basis, the existence of so much discussion on such an important topic demonstrates, at least, that the depression is having the beneficial effect of arousing a keener interest in a topic of vital interest to the future welfare of the country, because it cannot be denied that the trend of education of the youth of today will largely determine the destiny of the nation tomorrow.

Because of this it is highly important that there should be some unification of majority opinion on educational systems, methods and trends.

There are one or two things which should not be lost sight of in this welter of discussion which often, unfortunately, ranges around comparatively trivial details. That is, the main purposes of educational systems, which might briefly be enunciated as the intention of developing a desirable type of citizen and of developing a citizen capable of fitting himself or herself into the life of the community.

This means the development of a race of people with character and ability to think and act for themselves. If this is borne in mind as the chief objective of education, the great importance of the character and ability of the teacher becomes immediately apparent, a matter of far greater importance than the method, the text book or the curriculum, of even greater importance than the type of building in which instruction is carried on or the equipment that is used in imparting information.

The statement is not made with any intention of conveying an impression that the schools of the west are not staffed with teachers of character and capacity. On the contrary, the standard of the teaching profession has improved very materially and rapidly for so young a country as the Canadian west and teachers of the present day generally represent a high standard.

But it should be pointed out that if more emphasis is laid on the character and ability of the teacher as an essential of the first importance, the controversies over many other phases of the educational system would assume their rightful comparative values and would be relegated to the rear as questions of more or less minor consequence.

The home economics page has a recipe whereby rhubarb can be kept indefinitely. That's a good idea; keeping it indefinitely.

Replicas Of Crown Jewels

Collection Represents Forty Years' Hobby Of One Man

There will shortly be on view in London a collection of about 2,000 full-scale replicas of Crown Jewels, regalia, insignia, and other emblems of royal ceremonial which have cost their owner nearly £30,000.

The collection covers most of the past and present monarchies of Europe, and represents the 40 years' hobby of one man and endless patient work by jewellers, stone-cutters, polishers, and other highly skilled craftsmen. Naturally the British Crown Jewels hold pride of place. They go back to the crown of Alfred the Great (circa 871) and embrace the crowns, sceptres, and orbs of 36 Kings and Queens since that time. Every example is as near a perfect reproduction of its original as is possible, except, of course, the diamonds, rubies, pearls, and other precious stones, which are represented by brilliants and synthetic stones.

Each is an absolute copy for size, shape, cutting and setting, color and polish, and so meticulous has been the effort to achieve historical accuracy that the owner of this collection has literally spent months in the Tower and the London museums making sketches and in collecting photographs and measurements.

In olden days each King and Queen had a new set of Coronation Jewels. Most of these were destroyed in the Commonwealth days, and in more modern times economy calls have resulted in crowns being altered to suit successive monarchs.

Search For Gold In England

King Of Dowagers Arrives In London From Vienna

Armed with a small silver diving rod, and clad in a picturesque uniform, Dr. Emerich Herzog, "King of Dowagers," arrived in London from Vienna to search for gold and oil in England.

Interested parties, he says, have invited him to take part in the hunt for oil in the south. During his stay he will undertake a lecture tour, his engagements including an address to the British Society of Dowagers.

Drawing his rod from an inside pocket of his coat, Dr. Herzog gave a demonstration. Held over a cup of water the rod pointed its sprung tip downward.

This rod is not his only apparatus. He has with him 27 different types of dowsing machines for divining the presence of different mineral deposits.

Dr. Herzog, 76, has 46 years' experience of dowsing. He claims the discovery of important deposits of copper, gold, beryllium and platinum in Austria and himself owns gold, silver and lead mines revealed by his own rod.

Dr. Herzog came over to England by air and says that while the aeroplane was travelling between the coast and Croydon he recorded oil and gold deposits.

SELECTED RECIPES

SAND TARTS

½ cup butter
1 cup sugar
1 egg
1½ cups flour
2 teaspoons Magic Baking Powder
White of one egg
1 tablespoon sugar
½ teaspoon cinnamon
Blanched almonds
Cream butter, add sugar gradually and well beaten egg, then flour which has been sifted with baking powder, "chill" dough. Put half the mixture on floured board and roll one-eighth inch thick—cut with doughnut cutter—brush over with white of egg and sprinkle with sugar and cinnamon—split almonds and arrange on top, three halves at equal distance. Place on buttered sheet, bake 8 to 10 minutes in a slow oven. When baked the tarts should be a very delicate brown.

Dadiled Travel By Air

Racing Greyhound Leaped 2,000 Feet To Its Death

After biting its way through the fabric of an airplane during a trip from Brisbane to Sydney a racing greyhound leaped 2,000 feet to its death. The dog had been placed in a wicker crate in the baggage compartment at the rear of the passengers' cabin, and apparently became excited at air travel. It escaped from the crate and then started the task of tearing its way through the fabric. It eventually succeeded for when the air liner arrived at the Sydney airport, the greyhound was missing and the fabric was torn.

Marie Antoinette was imprisoned for more than a year before her execution. 2171

Japan Buys Canadian Ship

Merchant Marine Freighter Has Been Sold Five Times

Apparently under permanent ownership at last, the former Canadian government merchant marine freighter, Canadian Leader, sailed from Halifax with a Japanese crew for the West Indies to pick up a cargo of scrap iron consigned to Japan.

Since her sale along with nine other government steamships last winter to the Montreal-Australia-New Zealand line, the Canadian Leader has had a checkered career. She was sold by the Anzac line to the British Tower Steamship Company, resold to Rethymnis and Kulu-kunda, Greek shipping company, and finally bought by Japanese interests at a price reputed to be \$82,500. It was also reported Japanese interests had bought the Canadian Victor, now in England, and the Canadian British at Montreal.

Revising Their Manners

Japs Studying Proper Greeting For Next Olympic Visitors

Foreigners who attend the Olympic games at Tokyo in 1940 will be spared the embarrassment of the naive Japanese salutation, "How old are you?"

Police are passing the word around that the heretofore proper greeting—from the Japanese viewpoint—is distasteful to foreigners, especially women.

Although the Olympiad is three and a half years ahead, Japanese are already getting ready. Study of English has been given a great impetus among store clerks, policemen and businessmen. Early concern for the morals of Japanese girls is being dissipated.

It is said that it is possible to make a razor blade that would keep its edge indefinitely without stropping, but such a blade would cost approximately \$25.

Learned At Seventy-Two

Two years ago Mrs. Susannah Wheelwright of Norton-Close, English highway, England, decided she'd better learn to swim. After all, she was only 72. So she went to the Enfield Lido, bought a season ticket, and took her first dip. Now she can swim a quarter of a mile.

To Help You AVOID MANY COLDS

At the first nasal irritation or sniffle, apply Vicks Vapo-Nol—just a few drops up each nostril. Used in time, it helps prevent many colds entirely.

VICKS VAPOR-NOL

For Coronation Day

State Coach Of Speaker Of The House Being Reconditioned

The state coach of the speaker of the House of Commons is being refurbished up for the coronation.

Its last appearance was at King George's jubilee, when the speaker rode in it to St. Paul's. At King George's coronation in 1911 it merely conveyed the speaker from the House of Commons to the abbey, a distance of less than 300 yards.

Oddly enough while the coach, with harness and stables, is provided by the state, the speaker has to arrange himself for horses. For nearly a century Whitebread's brewery has had this privilege, which dates from the time when Mr. Speaker Shaw-Lefevre married a Whitebread. The coach weighs nearly 3½ tons, and having no brakes cannot go down hill.

Breathes With Iron Lung

Birdsall Sweet, now 18, has completed the fifth year he has spent with an "iron lung" to aid his breathing. Hospital attendants in Beacon, N.Y., described his spirits as good and his growth in height and weight nearly normal. His treatment began after an attack of infantile paralysis.

"I hear you're going to be married, old man! I hope you'll be very happy."

"Well, I don't see why I should not. I came through the War all right."

Our sins will find us out, but they can generally be relied upon to call again.

The distance around the world at the equator has shrunk 1½ miles in the last century.

Show Their Patriotism

Thousands Of Families Change Swedish Surnames To Finnish

Thirty thousand families have officially changed their Swedish surnames to more Finnish-sounding ones. This wave of patriotism follows the example of 25,000 families who did the same at the recent Kalevala (national epic) centenary celebrations. Considerable confusion has resulted from this sudden change, states a message from Helsingfors. Postmen, particularly, are finding it a problem to deliver letters to the right people, and correspondents have to think twice when they address business and personal friends.

A Brand New Industry

Calling Elk For Photographers Is Job Of Banff Guide

Banff has a brand new industry which was invented by Les Saunders, of Bowden, north of Calgary, who is a trail guide there in the summer. On long pony trail trips he amused guests at the Banff Springs Hotel by imitating the peculiar mating call of the elk. It was not long until he found bull elk answering him, and finally approaching near to investigate. Now he is kept busy calling elk from the woods for enthusiastic photographers.

Smith had called on his tailor with a complaint.

"Isn't this bill rather steep?" he said.

"You should know best, sir," said the tailor, "for it was run up by you."

More persons over 60 years of age live in Switzerland than in any other country in the world.

NEW
PLUG-IN

NEW
JACKET

**YOUR
NEXT 'B' BATTERY**

ALWAYS A LEADER in battery improvements, Eveready this year presents the Layerbilt with a new "plug-in" socket. With each Layerbilt comes an adapter—a flat disc with connectors and pins. Simply attach the wires from the set to the disc and the three pins into the one socket which is firmly embedded in the top of the battery.

This "plug-in" is an extra advantage for the famous Layerbilt—the only battery built in layers—the modern invention which gives 40% more power than round-cell types.

Pay a few more cents for Layerbilt—and have many hours more of trouble-free service. During the life-time of your set, Layerbilt will save you many dollars.

London Parade Of British Fascists Is Halted By Authorities

London.—Anti-Fascist demonstrators massed in London's east end Sunday forced the cancellation of a parade by the British Union of Fascists.

"Kill Mosley!" some of the crowd shouted in derision of Sir Oswald Mosley, leader of the Fascist group. Nearly 500,000 persons were in the demonstration. It was estimated unofficially. Police halted the planned Fascist parade, scheduled to march through the heart of the Jewish quarter, after fighting broke out at a number of points and threatened to spread.

The demonstrators erected barricades at some points along each route of the abandoned parade, and many gave the Communist salute as the Fascists assembled near the Tower of London.

Police who carried away a screaming, kicking girl met a shower of bricks from the roof tops. Firecrackers were hurled beneath mounted officers' horses, several shop windows and some street car windows were smashed. One truck was overturned by the anti-Fascists.

Communists, Independent Labor party adherents and Jewish ex-servicemen marched between each route of police to repeated cries directed toward the Fascists: "They shall not pass."

Mosley arrived by automobile, carrying the Union Jack, and drove along the Fascist ranks. He was dressed in a black shirt and a black tie. He was hit by a missile fired near him as he alighted from his car and three policemen seized the assailant.

Decision to stop the Fascist parade followed telephone appeals to the home office by the former secretary of the Independent Labor party, Fenner Brockway. He begged the authorities to cancel or divert the procession to avoid a dangerous situation.

It was understood the home secretary, Sir John Simon, directed Sir Philip Game, head of Scotland Yard, to order the Fascist leader to abandon the parade.

"Simon's turned yellow!" the Fascists shouted. "What about the rights of free speech?"

Fifty-three persons were arrested. Scores were treated for minor wounds after the rioting. About a dozen were injured more seriously, police reported.

Mosley, in a statement after he agreed to postpone the parade, accused the government of surrendering to "a Red terror" and described the events of the day as a clear indication of the necessity for Fascism in Britain.

Grant Was Reduced

Toronto.—Provincial relief inspectors checking a plea from Riverside, Essex county, for more provincial help, "found 22 relief recipients driving their own cars," Hon. David Croll, minister of public welfare, said. "As a result of this amazing revelation," added the minister, "the Riverside grant will be reduced at once."

Canada's Resources Must Not Be For The Privileged Few

Edmonton.—Development of Canada's resources must not "be in the interests of a privileged few," Hon. T. A. Cresser, Dominion minister of mines, told a joint luncheon of the Edmonton chamber of commerce and the chamber of mines here. Delegates attending the current convention of the Canadian Institute of Mining and Metallurgy were guests at the luncheon.

The minister blamed uncertainty and lack of confidence on the part of investors for retarding development.

"If we see new activity throughout the world we can say we are now emerging from depression days," he said. "Canada suffered terribly and most of it can be considered results of the World War."

"Tremendous advances have been made in science and invention since then, making for more favorable conditions. But we have not yet re-established the balance disrupted by impact of the war on every department of human life."

He referred to huge expenditures

Striving To Enforce Peace

Government Using Every Means To Restore Order In Palestine

Jerusalem.—The Holy Land awaits proclamation of martial law, authorized by the British cabinet, as a last resort of the Palestine government to end disorders. Two divisions of Great Britain's troops, supported by squadrons of aeroplanes, are striving to enforce peace on Arabs sworn to an undying feud against the Jews, who, they say, are stealing the country from them.

The Arab protest against Jewish immigration and the sale of land to Jews took the form of a general strike, which, it is estimated, has now lasted 24 weeks and resulting disorders. It is estimated, have taken 428 lives. The dead are believed to be 27 British soldiers and police, 304 Arabs and 87 Jews. About 1,200 persons have been wounded since the strike began April 19, it is said, and property damage is estimated at \$14,000,000.

The authorities charged with pacifying the country, mandated to Britain by the League of Nations after the Great War, face a delicate task. Across the border in Transjordan the most warlike people on earth, the Bedouins, who drove the Turks from the Hedjaz during the war, fidget uneasily. It is said that only a judicious distribution of largesse among the chieftains has kept them quiet thus far.

The uprising started spontaneously. There was a funeral in Jaffa in April, and Arabs claim that slurring remarks from the sidewalks as the cortege passed started a fight. Before the day was over 10 Jews and two Arabs had been killed.

Story Of Success

Canadian Becomes President Of Large American Industry

New York.—The \$43,000,000 American Can Company had a new president today and America another success story as Canadian-born Herbert A. Baker, now a United States citizen, became its chief operating officer.

Baker, scientist as well as business man, rose through the laboratory and sales division of the can-making concern, with which he has been connected since graduation from the University of Toronto in 1906.

He was born at Harmony, Ont., a suburb of Oshawa. His officials would not say in what year. Baker would not comment on his elevation. He left Canada in his middle 20's.

But the outlines of a romantic career were apparent in the record. Four years after he began his business life with American Can Company he became its chief chemist. Eight years later he was manager of the company's central sales division, stationed at Chicago. From there he stepped into the vice-presidency in charge of sales.

He completed his rise when he succeeded C. E. Green, resigned.

Canada's Resources Must Not Be For The Privileged Few

Edmonton.—Development of Canada's resources must not "be in the interests of a privileged few," Hon. T. A. Cresser, Dominion minister of mines, told a joint luncheon of the Edmonton chamber of commerce and the chamber of mines here. Delegates attending the current convention of the Canadian Institute of Mining and Metallurgy were guests at the luncheon.

The minister blamed uncertainty and lack of confidence on the part of investors for retarding development.

"If we see new activity throughout the world we can say we are now emerging from depression days," he said. "Canada suffered terribly and most of it can be considered results of the World War."

"Tremendous advances have been made in science and invention since then, making for more favorable conditions. But we have not yet re-established the balance disrupted by impact of the war on every department of human life."

He referred to huge expenditures

Returns From Northland

Steamship Nascope Brings News From Arctic Regions

Halifax.—The ice-scarred steamship Nascope came back from the Canadian northland, bringing the year's output of news from the Arctic regions. Almost complete absence of crime was noted by Inspector Keith Duncan of the Royal Canadian Mounted Police who carried out inspections in all the far-north posts.

"The Eskimos are getting along fine," reported Major D. L. McKeand, M.C., officer in charge of the expedition, but he added they had their own "depression" due to a scarcity of caribou, their chief supply of clothing. Also, seals and walrus, their main food source, were difficult to find, Major McKeand said. Health of the natives was improving.

Corporal R. C. Gray of the R.C.M.P., after four years in the western Arctic and two years at Pond Inlet, returned on the Nascope, being relieved by Constable L. E. Cory. Constable Arthur Munro broke his five years' vigil at Lake Harbour to return to civilization. Constable D. C. Turner took over his post. At Port Harrison, Constable W. G. Doorman replaced Constable L. H. Yeomans and Constable R. N. Yates went north with the Nascope to strengthen the detachment at Chesterfield Inlet.

To Check Paralysis

Restriction Of Public Gatherings In Southern Manitoba Towns

Winnipeg.—Restrictions on public gatherings were in force at a score of southern Manitoba towns, as the toll of an epidemic of infantile paralysis continued to grow. Fourteen persons were dead.

The number of known sufferers stood at 290, with 13 new cases. The latest victim of the disease which broke out three months ago was Andrew Dennis, 16, at Orono, a hamlet 130 miles west of Winnipeg.

The infected area comprised almost all of southern Manitoba from a point a few miles east of Winnipeg to the Saskatchewan boundary. A distance of approximately 250 miles. The belt was 75 miles wide.

But the epidemic soon would be on the wane, said officials of the provincial health department. With the coming of cold weather, said one official, the outbreak "should be definitely on the decline after Oct. 15. It always has before."

Returns To London

King Edward And Party Arrive From Visit To Scotland

London.—The king returned to London from Balmoral castle in Scotland, where he spent a three-week holiday.

Travelling with His Majesty in special saucers cars attached to a regular express train were the Duke and Duchess of Kent and other members of the Balmoral House party.

King Edward, wearing a dark grey lounge suit, motored directly to Buckingham Palace, where he had breakfast with his mother, Queen Mary.

In accordance with his expressed desire, there were no formalities upon arrival of the train at Euston at 8 a.m. No railway officials attended. Friends of other arrivals on the train were excluded from the platform.

Few bystanders at such an early hour recognized His Majesty, who stepped immediately into his waiting car.

SECRETARY OF LEAGUE OF NATIONS COUNCIL

Joseph A. C. Avenol of France (above) has placed twenty-four items on the agenda of the League of Nations council at Geneva, hopeful of maintaining world peace.

To Receive Degree

Victoria University To Bestow Degree Of Doctor Of Divinity On Baron Tweedsmuir

Toronto.—Believed to be the first instance in Canada of the conferment of the doctor of divinity degree on a layman, that honor will be received by Baron Tweedsmuir, governor-general of Canada, from Victoria University, October 10, at the celebration of the 100th anniversary of the institution's royal charter.

Lord Tweedsmuir's tenure of the post of lord high commissioner to the Church of Scotland in 1933 and 1934, as well as his Excellency's well-known intellectual achievements, were the "honoris causa" on which the university authorities based their request that he accept the degree usually reserved for theologians.

Others who will receive the D.D. degree from Victoria, Oct. 10, at the special joint convocation of the University of Toronto, with Victoria is affiliated, are: Rt. Rev. Peter Bryce, Toronto, moderator of the United Church of Canada; Rt. Rev. Malcolm A. Campbell, Montreal, moderator of the Presbyterian Church in Canada; Rev. F. H. Cosgrave, Toronto, provost of Trinity University, and Rev. H. P. Whidden, Hamilton, chancellor of McMaster University.

New Altitude Record

British Pilot Takes His 'Plane 49,967 Feet Above Earth

Farnborough, England.—The Royal Air Force announced Squadron Leader F. R. D. Swain had established a world altitude record of 49,967 feet.

The announcement said Swain flew an experimental plane at Bristol, exceeding a record of 48,698 feet set in August. His ship was powered with a special Pegasus motor.

Swain is a member of the experimental section of the R.A.F. establishment at Farnborough. The former record holder was M. J. Dett, of France.

Swain was unaware he had established a new record when he descended from the stratosphere. Besides an altimeter, the plane carried two sealed "barothermographs" which are so complicated they had to be sent to the national physical laboratory to be read.

The pilot wore a specially sealed suit blown up to maintain ordinary air pressure in the rarefied heights where he encountered winds of hurricane force.

WHEN AIR-CRAFT RAID A CITY

Anti-aircraft gun manned by Spanish Government troops under Colonel Asensio, chief of one of the columns fighting in the Sierra. The gunner apparently has plenty of help in locating the aerial raiders.

Contributory Pensions For C.P.R. Employees To Replace Old Plan

Montreal.—Contributory pensions for Canadian Pacific Railway employees will replace the railway's 33-year-old non-contributory system Jan. 1, 1937.

Increasing cost of the present scheme brought about the change, Sir Edward Beatty, president and chairman of the board, declared in announcing the move. His statement appeared in the "Canadian Pacific Staff Bulletin," house organ of the railway here.

Since the non-contributory plan's inception in 1903, the railway has paid out \$18,201,540 in pensions. Continuation on the same basis, Sir Edward declared, would "eventually impose upon the company financial burdens which it would be unable to bear."

Under the new plan, officers and employees will contribute three per cent of earnings. Rates of pension will be practically unchanged, and the pensioning age will be the same as now.

"It is hoped that all those eligible will become contributors," Sir Ed-

ward declared in his statement. In an adjoining column of the "Bulletin," an explanatory article says that after Dec. 31 all new employees who may become eligible for pensions will be required to become contributors.

The plan embraces all branches of the company's services as well as subsidiary companies controlled and operated by the C.P.R. It will be administered by seven men, four of them company officers, and the remaining three representing the organized classes of employees.

A company-employee committee, with four men from each end of the business, formulated the new system. Sir Edward said their study indicated the most successful plan would be one adhering most closely to the underlying principles of the present arrangement, with such changes as necessary to meet changing conditions.

The object is to provide "reasonable assurance that in the absence of circumstances beyond its (the company's) control, the payment of pensions upon the present scale may be continued."

Shortage Of Workers

Need Skilled Mechanics For Munition Plants In Britain

Montreal.—Shortage of skilled mechanics for munition and armament manufacture is being felt in England, according to Major-General W. B. M. King, former commanding officer of military district number four, who returned to Canada on the liner Montcalm.

General King, who plans to remain in Canada for the winter, said he had visited one plane manufacturing plant and was told the staff of 3,500 would be doubled if more skilled mechanics were available. Two years ago, he said, the same plant had a staff of 50 men—manufacturing truck bodies.

Similar conditions exist in other branches of armament manufacture, he said.

To Close Abbey

Preparations To Be Made For Coronation Of The King

London.—Announcement was made that Westminster Abbey will be closed to the public as from Jan. 4, 1937, to allow the Office of Works to prepare for the coronation to take place May 12. The only exception will be the tiny chapel of St. Faith, which is to be available for private devotions.

The organ already has been dismantled for thorough reconstruction, but certain features more than 200 years old will be retained. Practically the whole of the nave and transepts will be filled with wooden galleries, some reaching to the lofty triforium. These galleries probably will be covered with blue material with silvered threads.

Official Visit Ended

Governor-General Returns To Ottawa From Western Trip

Winnipeg.—His first official tour of the west at an end, Baron Tweedsmuir left here for Ottawa shortly after noon. The governor-general, who had spent a brief holiday in northern Saskatchewan.

The governor-general took with him a beaded cloak for King Edward, made by the Indians of Mistawasis reserve near Prince Albert, as a symbol of their loyalty to the empire.

No official calls were made by His Excellency during a three-hour stay here.

Mandates Question Is Subject Of Bitter Controversy

Margate, Kent.—The Conservative party opened its annual conference at this seaside resort, heard a strong speech on defence questions by Sir Samuel Hoare, administered a rebuff to the government on the mandates question, and urged an imperial tariff preference on all agricultural produce.

The conference showed itself entirely out of sympathy with the government's refusal to pledge itself definitely not to discuss the question of the possible transfer of British mandated territories, and defeated an amendment which expressed the official attitude.

Sir Samuel Hoare, first lord of the admiralty, attempted unsuccessfully to rally the delegates to the official view, after declaring in his speech to the conference that the British government itself had no intention of raising the question.

Duncan Sanays, son-in-law of Winston Churchill, introduced the mandates resolution, which was carried amid cheers. It urged the government "in order to dispel grave anxieties within the Empire and dangerous hope abroad, to give an assurance that the declaration made by the then foreign secretary, Sir John Simon, to the German chancellor in Berlin in March, 1935, that the cession of British mandated territory was not a discussable question, still remain the unaltered attitude of His Majesty's government."

Sir Samuel Hoare reviewed Prime

Minister Baldwin's statement in the House of Commons last April, in which Mr. Baldwin made the legal position of mandates clear. He showed then that no provision was made for the transfer of mandates and assured the house the government had no intention of raising the matter. Sir Samuel added he hoped that in the present delicate international situation he would not be expected to elaborate or add to these statements.

The amendment which the conference rejected asked that the delegates accept this declaration as well as the prime minister's assurance that the government would not enter into any commitments without first permitting the fullest discussion in the House of Commons. Sanays' original motion was carried by acclamation.

Sir Samuel's speech on defence questions was followed by the conference's unanimous approval of a resolution commending the government's defence policy. In his speech Sir Samuel said the situation had become "substantially worse" during the past six months, that the "supposed weakness" of the British Empire had become a disturbing factor in international politics, that Germany was spending \$4,000,000,000 annually in military expenditure, and that the proportion of the Japanese total budget devoted to the army and navy had reached the striking figure of 46 per cent.

NOTES AND COMMENTS

THE REPORT of the Alberta Bondholders' Committee, presented to the premier and the government of the province, is very enlightening. It has been submitted after a very careful investigation and survey and states that Alberta is economically and fiscally solvent and can pay all its interest obligations in full.

THE CONCLUSION reached is that the people of Alberta have available funds to meet governmental costs without recourse to repudiation, states the report, which is directed to the government and the people of Alberta. It states in part that the form in which the survey has been completed and transmitted to the bondholders' committee, is a document temperate in tone, seeking objectively and dispassionately to present the case that the province of Alberta in its own interests and in the interests of its people should not seek the way out of difficulties by means of arbitrary and compulsory legislation, a repudiation of obligations and a financing of expenditures of government by a reduction in interest payments which are "legally and morally" just. The entire document is persuasive rather than critical and in a number of instances the government's announced policy of non-borrowing is commended. Yet the authors are again and again driven to the conclusion that the province can, if it will, meet its obligations in full without resorting to additional taxation or curtailing of essential and usual public services.

POSSIBLY Premier Aberhart will have something to say in reply to this report, which will be of far greater importance than using the political platform to boost sales of Calgary Albertan stock. Repudiation will have very serious effects on the credit of the province, besides bringing distress to a large number of small investors who will be heavily penalized by debt repudiation and the arbitrary cutting in half of interest which the province agreed to pay when the money was borrowed to finance necessary undertakings in the public interest. Drawing a red herring across the trail by charging misrepresentation against those who do not agree with his theories is not the right way to deal with so important a matter.

FREE Publicity comes in by the ream. Some from the provincial government, which tells people not to read any other newspaper than the Calgary Albertan; some from quacks, and the prize tit-bit was a bulky envelope containing a lot of stuff we didn't take time to read except we saw a coupon which we were asked to return with a contribution to aid Spanish Democracy. Rev. Ben Spence's name appeared as acting chairman of this committee, address Toronto. Now, democracy needs a lot of aiding in Alberta right now, and it may need more before we throw off the yoke of Fascism which is insidiously developing, helped along by a weakened electorate who have been told they can repudiate their debts and get away with it. So the appeal for Spanish Democracy as well as all the other publicity stuff went quickly into the can.

THIS reminds us of a fight we saw last Saturday night.

Two men were hammering away when a third butted in. Then a fourth stepped in and started on the man who had butted in. "You just leave 'em alone, and don't poke your nose into a family squabble," he warned the butter-in after giving him a few nasty pokes. So when we are asked to send contributions to Spain, we should remember that it is none of our business butting into their civil war. "If they want to fight, let 'em fight, or as an old song said: 'If the missus wants to drown, let 'er drown.'"

THE Chilliwack Progress hands out a straight hit in the following words:

"The community expects its public institutions to be defended, to be favorably reported, to be kept in good report throughout the district and the province. Churches, societies and organizations look for and expect their activities to be reported in their home paper. And the home paper does all these things—likes to do them."

"This being so, it is only human that the owners of and those who are employed at the local newspaper office should expect all those various interests would return the compliment through giving printing orders. If all the requirements of Chilliwack were to be printed in Chilliwack, the Progress would have to increase its staff."

PRICE CUTTERS AND BEDROOM PRINTERS

We would remind some of the predatory birds in the form of free publicity seekers that this goes for The Journal, too. This paper is a business enterprise, it comes here to pay its way and to give a service to the best of its ability and as good as the revenue would permit. Yet we have known chisellers to send a printing job elsewhere to save a few cents. In fact one instance was reported where a customer

Local News

Mr. and Mrs. Sam Cooley and baby daughter were visitors to Calgary over the week-end.

F. T. Edwards, editor of the Pincher Creek Echo, who went over to Vimy, is expected back to-day.

Stuart Murdoch, formerly of Calgary, is in charge of electrical work for International Coal Co. and Coleman Light & Water Co.

R. H. Melville, manager of the Confederation Life for Southern Alberta, and H. C. Charman, C. L. U. representative, will visit Coleman during next week.

The reception held by Rev. J. H. and Mrs. Bevan was attended by quite a number of friends and acquaintances, and several called in the evening.

Among those who went to Calgary for the week-end were: Mrs. S. Milley and Viola, Mrs. Phillips, Mrs. G. Pattinson, Mrs. Dewar, Mrs. T. Flynn, Mrs. J. Knowles.

Mr. and Mrs. Harry Gardner are spending a holiday at Edmonton, and will spend part of the time in hunting ducks and chickens north of that city. Harry Clifford accompanied them.

A farmer friend writes in to inform The Journal he has found the difference between a tax and a levy. The tax takes half of what you have, and the levy takes it all.

Mrs. Jack Wilson of Seventh street spent a few days with friends in Lethbridge. Mr. Wilson, who went overseas in July on the Vimy Pilgrimage, will leave England on Oct. 17, and expects to reach Coleman on October 30.

Mr. and Mrs. Jim Hadley had a run of luck during the past two weeks. First he won \$13.25 in a football sweep, and last Saturday won \$64 in a baseball sweep. Then his wife won \$70 on Sunday. They purchased tickets for years, and this is their first lucky strike.

Business people in Red Deer and other Alberta cities know their onions. No "cheap" system for them. Their advertising appears in the printed sheet, which finds a place in every home and is prized and read by the whole household.—Blairmore Enterprise.

Social Credit leaders state that 375,000 people signed the covenants. Dividends of \$25 monthly will require \$12,500,000 annually in Alberta Credit. Just what value this credit will have in view of repudiation and debt cancellations to say nothing of compulsory interest cuts, remains to be seen.

C. J. TOMPKINS

For nearly 20 years this well-known representative of the Sun Life Assurance Company has been giving efficient service to the people of the Pass towns. Insurance service, he considers, does not merely consist in securing business in writing policies, but in taking care through good times and bad that a policyholder is amply protected, and does not allow his policy to lapse through carelessness, neglect or temporary financial difficulties.

In this latter respect "C. J." has often done far more than regulations required to keep policies in good standing, and has thereby earned the goodwill of many a policyholder who might have sacrificed his interest from various causes. Attention is directed towards his display advertisement on this page.

Premier Selling Newspaper Stock

If every political leader was a high-pressure salesman for the newspapers which favored his policies, what confusion there would be. Or on the other hand wouldn't people become so fed up with it that they would turn to the independent press to get both sides of the story and the truth. Here is what the Banff Crag & Canyon publishes:

"The Premier has spent practically his whole life in the school room when he should have been out as a high pressure salesman. First of all he sold to the people of Alberta a fanatical idea, now he is out to sell to those same people a newspaper. For the past several months sale of stock has been pushed—but it must have fallen down badly. Now the promoters call upon "Big Chief High Pressure" for assistance—after first carefully preparing the ground by advertising widely that the Premier would have an important announcement to make on his return from the coast province. Yes we "listened in" and when it was found how we had been "taken" the old saying of the master circus man, Barnum, came to our mind, "There is a sucker born every minute."

Notes And Comments

(Continued from Page 4.)

(not in Coleman) of a weekly newspaper sent his order for counter check books to Winnipeg rather than pay the 70c provincial sales tax to his local printing office. There was a prize chiseller, and the editor didn't overlook publishing the fact. The printing trade, like many other business enterprises, always has had to contend with cut price and bedroom printers, and like fleas on a dog, they will continue to breed. Legitimate wages, regular hours and all other conditions of labor are ignored by these scabs on legitimate industry. Yes, we have them too! But quality, like truth, wins in the final count.

It is necessary to be happy in order to make happy, and it is necessary to make happy in order to remain happy.—Master-Linck.

THERE'S A SUN LIFE POLICY FOR EVERYONE

An Unequalled Advertising Medium
is

Your Local Newspaper

NATIONAL Advertisers have realized this fact for years.

They realize that there is absolutely no advertising medium which is so thoroughly read and welcomed in the home—among the people whom they desire to reach—as the local newspaper. That is why they spend huge sums yearly with the country weeklies. They have all forms

of advertising at their disposal—radio, direct-by-mail, and what not—but they spend the greater portion of their advertising appropriations in newspaper advertising, a very large share of which goes to the country weekly newspapers such as the Coleman Journal. They do this because they know that that is where it really reaches the rural public of western Canada, and that where a weekly newspaper goes into the home it is more thoroughly read than any other periodical.

The Coleman Journal

The most effective advertising medium is through guaranteed circulation. People who think sufficiently well of a newspaper to pay a regular annual subscription for it year after year are certainly the best clientele and the most worth-while purchasers of local retailers. That's why leading retailers in cities or small towns always use the newspapers which have a standing in the communities in which they are published; which stand for a principle and do not trim their sails to every passing breeze.

Reminder

The successful man was lecturing to an admiring audience.

"I must say," he concluded, "that I owe everything I have to my wife." "Hey!" shouted a tradesman at the back of the hall, "you're not forgetting my bill, are yer?"—Grit.

WORLD HAPPENINGS BRIEFLY TOLD

Germans involved in automobile accidents henceforth will be submitted to a special blood test proving sobriety or intoxication, the ministry of the interior announced.

Extensions of lines and equipment costing \$8,750,000 will be made this fall in connection with the United Kingdom's government telephone services.

During July 65 persons were killed in highway accidents in Ontario, the Ontario highways department reported. The figure was the highest in any July since 1929.

Provincial relief inspectors checking a plea from Riverside, Essex county, for more provincial help, "found 22 relief recipients driving their own cars," Hon. David Croll, minister of public welfare, said.

Western Canada's wheat crop this year is one of the highest in quality, it was indicated in a report of James D. Frazer, chief grain inspector, to the annual meeting of the grain standard board.

A decline of \$85,000,000 in total cash income of United States farmers from July to August—when farm income usually increases—was reported by the agriculture department.

Declaring baby shows cause jealousy and unhappiness the Mothers and Infants Association at Croydon, England, declined to act on a reception committee at a national baby show in Romford.

Striking suddenly in United States cities from coast to coast, treasury law enforcement agencies had made close to 1,000 arrests and seized several hundred illicit stills in a drive against narcotic and liquor law violators.

Land Salvaged In India

Forty Million Acres Reclaimed By British In Fifty Years

British India leads the world in territory that has been reclaimed or irrigated during the last fifty years, according to the latest report of the Central Irrigation Board of India, just published at India Office, London. The total of desert land irrigated and swamp and marshes reclaimed now borders on 40,000,000 acres, 31,000,000 of which are in British India.

The second country for the amount of land reclaimed in ten years is Italy, with just under 6,000,000 acres. In India the land reclaimed alone amounts to 7,000,000 acres; the balance laid down to cultivation has been irrigated.

When the present projects in India shall be completed 50,000,000 acres of land will have been irrigated; to-day what has been done furnishes work for just that number of people who own or work crops which give forth \$375,000,000 worth of produce—principally rice and beans, while the quantity of water used daily is about 260,000,000 gallons, extracted from over 75,000 miles of canals and distributed by over 50 great dams and hundreds of smaller ones.

Clear Of Debt

British Columbia Town Celebrates By Burning Paid Off Bonds

A little pile of ashes was all that remained of Ladysmith's \$94,336 bonded debt. When coal mines there closed six years ago the town appeared doomed financially. Last spring a rebirth took place with the establishment of a logging company in this British Columbia town. A giant flagpole was erected on the site where the city's debt was burned, as if to signalize the passing of the coal digging era.

A new prosperity brought by the logging company has enabled the city to pay off its debts to the last cent. The city celebrated the occasion by burning the bonds in a giant bonfire.

Closed Season For Squirrels

After shooting or trapping of red squirrels will be prohibited in Alberta this fall and winter, according to an order issued by the game branch. General scarcity of the little animals resulted in their being put on the protected list. In previous years they had been open season from Nov. 1 to March 31.

Completes Long Trip

Marchioness Of Reading Visited United States And Canada

The Marchioness of Reading has returned to England after completing a 10,000-mile transcontinental motor tour inconspicuously.

Travelling with only one companion and a chauffeur in order to study the people of Canada and the United States at first hand, Lady Reading said she was impressed by their vitality and friendliness, especially the young.

"One of the things that particularly struck me in every city and small town I have visited," she said, "has been the latent and super wealth that lies in the youth of the country. Their vitality, enterprise and determination, their energetic attack of a job and their large-viewed vision of the future are very stimulating and thrilling to watch."

Lady Reading, whose husband died last December, arrived at New York in May. After visiting friends, attending the two political conventions and being a guest of President and Mrs. Roosevelt at the White House, she started her trip through Canada, returning east through the United States.

She said she disregarded letters of introduction that she had been given, in order not to disclose her identity. As head of the Personal Service, largest voluntary relief organization in England, Lady Reading was particularly interested in observing relief methods. She talked with filling station men, mechanics, W.F.A. workmen, farmers, tradespeople and business men.

"As an interested watcher," she said, "I cannot help feeling that one of the great gifts education and democracy have had to bestow has been the complete freedom from self-consciousness which is so apparent in the youth of the country."

"It is a very striking thing to see the splendid way in which people have spent their money to enrich their cities and states. The libraries, hospitals, libraries and monuments have been provided on a scale more lavish than anywhere else in the world."

Made Himself Popular

Berlin's Chief Of Police Stopped Tooting Of Horns

For once the chief of police in Berlin is popular. His plan of marking noisy automobile drivers has brought peace. He ruled that anyone tooting his auto horn too loud or too frequently must have his car painted with a large yellow spot. After a few had received the decoration others became quiet, and peace reigned in the city which not long ago was called one of the noisiest in Europe.

Commodore Gooderham, of Toronto, urges car drivers to take up sailing to learn courtesy, but that's just the trouble. Too many motorists already know how to sail along the highways—too fast.

Crochet An Afghan Square By Square

Household Arts by Alice Brooks

Rising Sun Motif Uses Up Wool Scraps

PATTERN 5688

A soft, warm afghan's practicality a necessity when one lies down for a cat-nap, and here's one that even brightens your slumbers. Called "Rising Sun," this easily crocheted afghan is done in three shades of one color on a dark background. Thus a stunning effect is obtained. Crochet the blocks in the same, or different, colors and use up scraps of wool. Make a pillow too. The pattern 5688 you will find illustrated of it and of the stitches used; material requirements, and color suggestions.

To obtain this pattern send 20 cents in stamps or coin (cash preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

The Newest Photography

Trivision Principle Shows Depth And Cost Is Low

A picture of an old man in his shirt, sleeves, glittered in natural color on the desk of Douglas F. Winick, 29-year-old Madison, Wis., photographic engineer. The picture seemed to be a frame through which one was looking at a live human being.

Suddenly Winick picked it up, and the man in the picture seemed to move. An observer could see around the man and look at the scenery in the background. The likeness was round and full and the 8-by-10 photograph had actual depth. Winick laughed and explained:

"This is the first 'trivision' photograph having three dimensions ever made."

Winick demonstrated a series of "trivision" photographs, saying he expects the principle to revolutionize motion pictures, photography, cinematography, television and graphic printing.

The technique employed—use of cellulose acetate plates embossed with 800 ridges to the inch—will enable each of these fields to adopt pictures showing depth just as realistically as an actual live scene, Winick said, and the cost is exceptionally low.

Winick described his process as follows:

The eyes see two pictures in any object, but the brain co-ordinates these, giving the sense of depth. In photography only one picture can be shown by the old process, resulting in a flat, lifeless impression. The new process is simply a method of presenting two pictures to the eye.

This is accomplished through grooving the negative of the film. These grooves are so minute as to be invisible, and are the secret of the entire process. Each groove serves as a tiny lens which breaks the single image into two parts. The completed negative becomes then a mass of tiny two-section pictures.

The negative is developed on cellulose acetate plates, also grooved. These grooves retain the panoramic pictures. When seen from any angle the apparently smooth stereoscopic, or print, resolves itself into a separate picture for each eye, and presents a clear, solid, rounded view.

Winick displayed a picture of fruit in a display window. The scene was in full natural color. Each piece of fruit was outlined in depth and a view from a different angle revealed another piece behind it. The picture was ordinary size, 8 by 10 inches.

Protege Of The Queen

Young Orphan Boy Will Receive A Secondary Education

Queen Mary presented for admission to the Royal Infant Orphanage, Wanstead, a two-and-a-half-year-old orphan boy who will be maintained until he is 16. He is Brian William Frank Roberts, whose father, a chief steward on the Orient line boat, the Otranto, died last year. His mother died at the age of 24.

An official of the orphanage explained Queen Mary has the right of nomination to the institution of two children, so that there is always a protege of hers at the orphanage.

"You say Jake takes everything literally," "Yes, he was invited to a housewarming party and he took along some kindling and a box of matches."

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pump out two pints of bile into your bowels daily. If this bile does not flow, your food doesn't digest. It just decays in the bowels. Gas builds up. You get constipated. Bile is the natural cleanser of the system. Bile makes the bile flow freely and make you feel like a new man. Bile makes the bile flow freely. They do the work of a natural laxative but have no action on the bowels. Ask for Carter's Little Liver Pills by name! Strictly refuse anything else else.

New Gold Strike

Encouraging Reports Received From Yellowknife Mining Division

Confirmation of a new gold strike in the Yellowknife mining division of the Northwest Territories is contained in a message received by Hon. T. A. Crerar, minister of the interior, from A. L. Cumming, chief mining inspector for the department at Fort Smith, N.W.T.

The original locators of the new gold strike is located on the east side of Gordon Lake, about 50 miles north-east of the mouth of the Yellowknife river, where it enters Great Slave Lake.

The original locators of the find were representatives of the Mining Corporation of Canada, who made the strike last July 15, staking 36 claims. Two weeks later, the A.M. Syndicate staked 100 claims in the area. On September 5 staking was carried out by representatives of Ventures, Limited, Fred Connell, the A.E. Syndicate, Karl Springer, Wood-Brown Syndicate, Burwash Yellowknife Mines, Limited. The Mining Corporation and the A.M. Syndicate are planning to carry on development work during "freeze-up."

Interest in the new strike is indicated by activity of companies engaged in prospecting and mining in the Yellowknife mining division. Approximately 600 claims had been staked up to now. Mining Inspector Cumming and Dr. A. W. Jolliffe, geologist of the Dominion department of mines, visited the area. Mr. Cumming's report stated the strike consists of a series of veins, lenses and shearing zones occurring in a belt 15 miles in length with showings of free gold. Width of the veins and lenses would indicate commercial tonnage if the samples stand up under assay.

Sanctity Of Contracts

Maritime Board Of Trade Sees Danger Of Departure From Rigid Honesty

"A definite and apparently increasing tendency in certain quarters to depart from that rigid honesty involving sanctity of all contracts and obligations, provincial, municipal and personal" was noted by the maritime board of trade.

In a resolution passed at the closing session of the annual convention which expressed "gravest concern" in view of the trend, the association sought to "earnestly impress upon the federal government its profound seriousness."

Sanctity of all contracts and obligations the past had been accepted everywhere as traditionally and characteristically Canadian, the resolution stated.

The federal government was urged to use its "full prerogative to maintain the credit and standing of all Canada because of the 'inevitable' consequences upon the credit and reputation of the country" of the departure from traditional and characteristic honesty observed, the resolution concluded.

Butter Increase

A new record for creamery butter production was established in Saskatchewan during 1935 when the output reached the total of 22,853,859 pounds. This is almost two million pounds in excess of the previous high mark set in 1934.

SUNDAY SCHOOL LESSON

OCTOBER 11

BECOMING A CHRISTIAN

Golden text: Believe on the Lord Jesus, and thou shalt be saved. Acts 16:31.

Lesson: Acts 16:16-40; Philippians 3:7-14.

Devotional reading: II. Corinthians 1:3-10.

Explanations And Comments

The Second Convert to Christianity in Philippi, Acts 16:16-18. At Philippi Paul was greatly disturbed by a fortune-telling maid who kept following him and Silas and crying out, "These men are servants of the Most High God, who proclaim unto you the way of salvation."

The girl's re-litigated chant drew a crowd of curiosity seekers. Paul turned to her one day and in the name of Jesus Christ bade the spirit leave her, and she became wholly normal. Nothing further is said about this girl whose story arouses our sympathy.

"The owners of the slave girl with the abnormal mind had a very definite motive. They were making money. They did not have much sense of human value. When the insane girl was a normal girl, they were furious angry. They did not give a moment's thought to the fact that she was saved from a normal girl. They only thought of the fact that while they could commercialize her insanity, her sanity had no commercial value at all. So they began to stir up the city against Paul and Silas" (Lynn H. Hough).

The crowd clamored for the punishment of the two Jews, and the magistrates, without stopping to investigate the charge, ordered Paul and Silas stripped and beaten.

Paul and Silas were then handed over to a jailer who put them in an inner prison, which may have been underground, and fastened their feet in the stocks.

The Strange Release, Acts 16:25, 26. Their backs were lacerated by the blows received, and they were held in an unendurable cramped position, but, as Tertullian says, "Their souls were in heaven. They were not whose souls were in heaven." At midnight Paul and Silas were praying and singing hymns and the other prisoners were listening to them.

At midnight their bonds were burst under the doors of the prison were rung wide open by an earthquake which shook the old Roman jail to its foundation. The terrified jailer, who thought his prisoners must have escaped and there was nothing left for him to do but kill himself, was reassured by the calm words of Paul: "Do yourself no harm, for we are all here." And he called for a light, and, trembling for fear, fell down before Paul and Silas, and brought them out, and said, "What must I do to be saved?" And they said, Believe on the Lord Jesus, and thou shalt be saved, thou and thy house. And they spoke the word of the Lord unto him, with all that were in his house, and he took them the same hour of the night, and washed their stripes; and was baptized.

Paul, Silas, and How He Won It. Philippians 3:10-14. "I count all things to be loss, that I may gain Christ, so that I may know him and the power of his resurrection," cries Paul.

Carry High Speed Cameras

Aircraft Being Built For Service In Northwest Territories

The second of three aircraft being built in Montreal for the department of national defence for service in the Northwest Territories has been put through tests. The planes are especially built for high speed photographic and transport work and carry sufficient fuel and oil for five and a half hours' work at high altitude.

At the rear of the cabins are mountings for three oblique cameras which photograph automatically through small apertures in the metal canopy. The aircraft are fitted with float landing gear and the normal wheel undercarriages can also be fitted as well as a special ski undercarriage for winter flying.

The Netherlands have a shortage of land and must find employment in industry for over 30,000 people this year.

Nearly every country in the world has, at one time or another, turned its post office system into an advertising agency.

Carrying War Orders

Army-Age Nazis Know Where To Report If Needed

Millions of Germans between the ages of 25 and 45 are carrying in their vest pockets an order telling them exactly when and where they must report in the event of war.

This "kriegsbeordern" (order to take part in war), as it is headed is causing admitted anxiety, especially among the older men who themselves experienced the horrors of the Great War.

Outwardly they display enthusiasm, but in private, confidential conversations their beliefs are often quite different.

With Prussian exactness the order specifies even the barracks in which the recipient is to report, what he is to bring with him in the way of clothing, what he is to do in case he meanwhile changes his residence, etc.

The order is a blue sheet of paper eight by five inches. Written crosswise on the face of it are the words: "This order serves in lieu of a ticket on the railways to the point where the addressee must report."

Regulations accompanying the order state that failure to live up to the terms of the kriegsbeordern will be punished by martial law. "The person thus summoned is subject to martial law from the first day of its becoming effective."

Practice Has Been Stopped

Philippine Jail Prisoners Not Allowed To Eat At Home

Prisoners in the provincial jails of the Philippine islands may no longer return to their homes, unescorted, to have their meals and to sleep.

Epidio Quirino, secretary of the interior, has returned from a tour of the provinces and says that this "illegal and bad practice" must be discontinued forthwith.

The reason for allowing the prisoners to take their meals at home was that the government thus avoided the cost of feeding them.

In the past, minor offenders in many prisons were permitted to go home two or three times a day for their meals. Many of them were released every night so that they could sleep at home. Few tried to escape.

A Good Advertisement

Smith noticed a shilling on the floor of a big store. After glancing cautiously around to see that no one was looking he took out his handkerchief and dropped it on top of the coin. He then picked up the handkerchief, but the coin stuck firmly to the floor. He stood up hastily as he heard a shop assistant approached him.

Henceforth, in Montreal, anyone who blows an auto horn between midnight and four a.m. will be liable to a fine of \$40 and costs or one month in jail. This will be apt to take the enthusiasm out of the tooters. 2171

Local News

J. W. Gresham, Police Magistrate, was at Calgary this week.

T. C. Rees, of Printing Machinery and Ink Co. called at The Journal office on Tuesday.

Miss Marjorie Craig, of Lethbridge, is visiting her parents, Mr. and Mrs. H. C. Craig, this week.

Margaret Swinarton, Jim Greenwood and W. Wintemute were guests of Merry Craig over the week-end.

Remember the midnight dance at the community hall commencing 12.05 a.m. Thanksgiving Day. Admission 50c each.

Harry Wilton-Clark, manager of Mohawk Bituminous Mines, was a business visitor to Calgary over the week-end.

Mr. and Mrs. J. A. McDonald are spending a few days in Calgary, Mrs. Florence Smith accompanying them.

Mrs. A. G. Swinerton and daughter Sheila, of Macleod were visitors with Mr. and Mrs. H. C. Craig for the past two weeks.

Miss Marge Milley, former student of Coleman high school, will leave on Saturday for Calgary, where she will take a course in beauty culture.

Jimmy Taylor's name was omitted from the donors to the prize list for the pigeon fights, he having given \$2.00 towards same, which is appreciated.

Mrs. A. B. Westworth entertained a number of ladies at bridge on Thursday evening, Mrs. Halliwell winning first prize and Mrs. J. Rogers second.

Mr. and Mrs. H. T. Halliwell left to-day for Calgary to attend the annual convention of the Alberta division of the Canadian Weekly Newspapers Association at the Palliser hotel.

Sam Moores made a record bet of \$10,000 last week, and won. But the money was at a heavy discount, and if you want any of it it can be bought at \$1000 for the sum of ten cents.

Mr. and Mrs. William Lees, who returned last week from a holiday in Vancouver and Victoria, met a number of old Coleman friends at the coast, and spent an enjoyable time there.

Andy Thorner performed an operation on himself by almost severing his thumb with an axe when chopping wood. Dr. McLean repaired the damage by sewing the almost severed thumb to its normal position.

Max Spottwood is at present attending Lester Patrick's hockey school at Winnipeg. Spottwood is expected to play for the locals this year. Bud Wolfe, who played goal for Drumheller at the local arena in the play-offs last year, is also attending.

Fernie's refusal to play with Caulfield of Coal Creek as referee caused postponement of the semi-final replay with Coleman in the Crahan Cup at the local ground on Sunday. It has since been learned that Coleman have been given the game and will meet Michel on the latter's ground on Sunday.

Major and Mrs. Acton will visit Coleman on Oct. 22 and 23. A public meeting in the Army hall will be addressed by Major Acton on Thursday at 7.30 p.m. On Friday at 2.30 p.m. Mrs. Acton will address a ladies' meeting. A Young People's meeting will be held on Friday at 4 p.m. and also at 7.30 p.m.

A shower was held at Mrs. Bowen's home on Friday evening, in honor of her daughter Maidie (Mrs. J. Joyce) when Mrs. Jack Richards won first prize in bridge and Mrs. J. H. Boulton second. Mrs. Jim Atkinson was awarded the consolation prize. Many beautiful presents were received and the evening concluded with a dainty lunch. The party was arranged by Mrs. George Hope and Mrs. S. B. VanDuzee.

Persons wishing to order personal greeting cards from the "Imperial Art" series, should have their orders in this office by Oct. 31, as those cards are manufactured in Lancaster, Eng.

Local News

October 7 and Bill Burrows was picking flowers in the town hall garden. "If this weather keeps up, we'll be picking a lot more," remarked Bill.

Mrs. Florence Ryan and Mrs. H. J. Ryan of Calgary and Mr. Peterson of California were the guests of Mr. and Mrs. S. B. Ryan over the week-end.

Heavy Gamblers

Last week we were inveigled into a gambling game, and the old favorite "black jack" or "21 or Bust" was played as a starter. Commencing with modest bets of \$100, the game became too tame for such piker's bets, so they were increased until they mounted up to five and ten thousand dollars. Eventually the banker was broke, so the crowd moved over to another game, roulette, where equally large bets were made. The banker here was soon cleaned up, and the wise players held all the stakes, amounting to some thousands of dollars. Well-known men about town were in on the games, and were all making reckless bets with utter abandon. Money counted as nothing to them, for they bought it at \$1000 for 10c, ten brand new \$100 bills for ten cents. The winnings were pooled for charitable purposes.

ANNOUNCEMENT

A. Melville Anderson, eyesight specialist, of Calgary, will make his next visit to Coleman **FRIDAY (Afternoon) OCT. 9th, 1936** at the jewelry store of J. M. Chalmers, Coleman.

Over 20 years experience and regular visits to this town assure you satisfaction in all optical work.
